Nice opening style + tempo on the march, Continue to develop your dynamic range, Some minor balance issues at times, Balance to the melodic lines/ melody + subdivide the rhythm to improve the precision. Maintain focus on the long notes, the phrase/musical line needs more direction at times, Use even more dynamic expression to improve the shaping of the line.

Officials will include a + or - by the subdivisions, which mean they are noticeably good or noticeably needing improvement as related to the letter grade assigned. The absence of any marks indicates a performance consistent with the letter assigned. After completing the previous, enter an A, B, C, D or E to indicate the level of performance in each category. Average the three letter grades in each category to arrive at a final letter grade. Average the three final grades to arrive at the FINAL RATING.

NOTE: The Overture is weighted heavier than the march due to the length and greater demands of musicianship

COMMENTS

March
 Very good introduction, well balance + blend. nice sound from the Low Brass, watch the key signature. Good job second time around low brass. nice volume from the Percussion. Good style, tempo. Over-all sound was good. Make sure you watch key signature.
